

WHAT IS A MENSTRUAL CUP?

The Lunette menstrual cup is the future of period care. It's your user-friendly, safe, reusable, and eco-logical alternative to pads and tampons. Plus, using Lunette helps by protecting the environment and your purse strings, offering peace of mind and a stress-free cycle.

Made of medical silicone, a menstrual cup collects fluids rather than absorbing them, keeping your superior interior naturally lubricated and healthy. Just fold, insert like a tampon, and let it do its thing. Then empty it rather than change it, wash it, and reuse it. They come in a pretty, convenient pouch to keep in your drawer or bag (in case you're early), so you can relax, lose the leaks, and live your life.

Welcome to the perfect period!

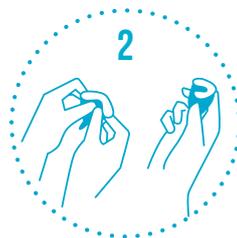

HOW DO I USE A MENSTRUAL CUP?

Lunette cups are easy to use. Simply fold and insert. Done! Lunette cup stays put for up to 12 hours, leaving you free to do your thing.

WASH HANDS

FOLD + HOLD

INSERT

WEAR + LEARN

REMOVE + EMPTY

CLEAN + SANITIZE

WHY SHOULD I USE A MENSTRUAL CUP?

Eco-conscious

SUSTAINABLE Our packaging and products are sustainable, made in Finland and are as close to waste-free as possible

ZERO WASTE No monthly bag of waste to throw out. With care one Lunette lasts up to 10 years. When it's time for a new one, just burn the old cup without contaminating soil or air. Only some ash is left behind.

Hygienic and safe

HYGIENIC Doesn't shed fibers like tampons; silicone doesn't feed bacterial growth — a reusable and safe alternative to pads and tampons.

SAFE BPA and Latex free. Wear it for up to 12 hours and overnight!

ODOURLESS AND EASY TO CLEAN with Lunette Feelbetter menstrual cup cleanser or Lunette Cupwipes.

HEALTHY Does not disrupt the natural lubricants of the vagina. You can even wear the cup when your period is due. With tampons, you risk dryness and irritation

Easy & worry free

SIMPLE Lunette cups are easy to use. Simply fold and insert. Done! Can be used by all ages and with an IUD.

COMFORTABLE Made of silky, medical grade silicone — so soft you won't even know it's there!

USER-FRIENDLY AND EFFICIENT Less changing hassle, more freedom. Only needs emptying 2-4 times per day so you can continue your sports and activities!

GOOD FOR YOU and your purse, great for the planet!

WHERE CAN I BUY A LUNETTE CUP?

Go to: www.lunette.com.au or www.lunette.co.nz to buy online or find your nearest retailer. As there are several brands of menstrual cups on the market, it is important to beware of cheap brand limitations. Anything under \$40 and the quality and safety of the cup may be compromised.
